The CMS-T332 from American Signal Company represents the latest advances in ALL-LED sign and highway safety technology. The CMS-T332 combines our SOLR™ primary power supply with our high quality trailer assembly to give you the lowest cost and most effective portable/ changeable message sign today.

The CMS-T332 utilizes a Dynapoint™ lens enhanced all LED display that provides outstanding legibility during all inclement weather, in both daylight and nighttime conditions.

The CMS-T332 menu driven program is the same as with our other portable signs within American Signal product line. Optionally, the CMS-T332 can be upgraded to be compatible with ITS systems, remote cellular, and also radar speed detection.
