

VBV-750-000N Camera Monitor System

Outstanding value single camera monitor system, offering a 5" digital monitor with excellent picture quality and a camera with 18 infra-red LEDs for use in low light conditions.

The 5" monitor is ideal for any cab where space is at a premium. The monitor has two additional camera inputs and offers 3 triggers to show the relevant camera image. These triggers can be activated by reverse gear, indicator or other vehicle operations. The system is plug and play ready to accept DVD, satellite navigation and other add-ons.

The system offers great reliability – it has been rigorously HALT tested and FCC approved – and is suitable for most road going applications.

VBV-770-000N Camera Monitor System

Outstanding value single camera monitor system, offering a 7" digital monitor with excellent picture quality and a camera with 18 infra-red LEDs for use in low light conditions.

The 7" monitor is ideal for most cabs where a larger screen is preferred. The monitor has two additional camera inputs and offers 3 triggers to show the relevant camera image. These triggers can be activated by reverse gear, indicator or other vehicle operations. The system is plug and play ready to accept DVD, satellite navigation and other add-ons.

The system offers great reliability – it has been rigorously HALT tested and FCC approved – and is suitable for most road going applications.
