## IMPROVE ROUTE EFFICIENCY

Vehicle tracking has never been easier

- **Records location, vehicle, and road condition metrics**
  - AVL and GPS location in real-time*
  - Vehicle MPH including stop and idle time
  - Complete spreader info** plus plow up/down

- **Unique low cost ‘Smart Device’ approach**
  - Works on most Android phones and tablets
  - Requires only Roadwatch® Tracker RS232 with BLE kit for wireless interface
  - No costly cellular data service required for WiFi based transfer mode
  - Easy to install and portable

- **Easy to read data presentation**
  - Custom icons used to identify vehicle types
  - Graphically shows plow and spreader status
  - Color coded road temps and treatment paths
  - Stop sign icon showing stops and idles with hover-over time details
  - Data compatible with free viewing tools such as ArcGIS® and Google Earth*

*3rd party cellular data service required
**Requires compatible spreader
