# MODEL 777

## WHEN SAFETY IS A PRIORITY

**Don't trust an inferior light – it could cost you in the end.** Model 777 is a reliable universal safety light that can be used in a variety of applications. It creates a safety “keepout” zone that is highly visible to keep employees and pedestrians away from moving vehicles.

### Safety Lighting Package:

J.W. Speaker offers a complete safety lighting package, designed to help both your operators as well as your workforce on the floor, adding highly visible safety precautions. Can be combined with linear safety light as per safety requirements.
