

THE NEED FOR CAMERAWASH IS CLEAR

CameraWash is
compatible with
all camera
brands.

CAMERAWASH ELIMINATES DIRT, ICE, AND SNOW FROM OBSTRUCTING YOUR VIEW.

It can be used on your rear vision camera, collision avoidance sensors, tail lights, mirrors, or headlights. With a push of a rocker switch, washer fluid mixes with high pressure air from your truck.

After cleaning the surface, push the rocker switch in the down position and it blows the surface dry without any scratching. It is a nonabrasive, non-contact cleaning action.

It is an easy install that will improve your vision tremendously. You can even get a timer for automatic cleaning! Custom kits are available to fit all your cleaning needs.
