

PRUTSMAN™ SERIES

Our Prutsman Series mirrors bring you simple, rugged, high-quality mirrors with traditional styling. Featuring heavy-duty stainless steel and durable seals to resist vibration damage, these mirrors are built tough. Prutsman Series mirrors feature West Coast heads, round convex, tripod assemblies with convex heads and look down models.

TRADITIONAL SERIES

The classic MotoMirror that everyone knows and loves is the Traditional series. With ¼" thick stainless steel housing, single piece gasket and of course the unique MotoMirror rotating head it is a head turner. Not only does it look great (and help you make your rig look great too) this mirror gives you amazing visibility when operating in tight spaces so you know what is there before the bump.

MIRROR HEADS - DRIVER SIDE

- 7-5500 Heated w/o Harness
- 7-5400 Heated & Motorized w/o Harness
- 7-1510 Heated w/ Harness
- 7-2410 Heated & Motorized w/ Harness

MIRROR HEADS - PASSENGER SIDE

- 7-5400 Heated & Motorized w/o Harness
- 7-2410 Heated & Motorized w/ Harness

COMPLETE KITS (ALL INCLUDE SWITCH KIT)

- 7-2310 1 x Heated & Motorized w/ Harness
- 7-2366 1 x Heated & Motorized w/ Harness & 1 x Heated w/ Harness
- 7-2386 2 x Heated & Motorized w/ Harness

AERO SERIES

The Aero series like the Traditional, features the MotoMirror unique rotating head which can rotate 360 degrees on the horizontal axis. This feature and the rugged construction make MotoMirror the mirror many seek to imitate but are never able to replicate. The Aero series gives you the tear drop slope like a wing of a plane. But don't let the shiny & sleek looks fool you, this mirror like all MotoMirror products are built for work. The job... keeping you and those around out of harm's way.

MIRROR HEADS - DRIVER SIDE

- 8-6500 Heated w/o Harness
- 8-6401 Heated & Motorized w/o Harness
- 8-1510 Heated w/ Harness
- 8-2411 Heated & Motorized w/ Harness

MIRROR HEADS - PASSENGER SIDE

- 8-6400 Heated & Motorized w/o Harness
- 8-2410 Heated & Motorized w/ Harness

COMPLETE KITS (ALL INCLUDE SWITCH KIT)

- 8-2366 1 x Heated & Motorized w/ Harness & 1 x Heated w/ Harness
- 8-2386 2 x Heated & Motorized w/ Harness

MOTO4 SERIES

The Moto4 series adds vertical glass movement to unique MotoMirror horizontal head rotation. It retains the stylish and tough exterior with its heavy duty stainless steel back shell so you don't lose any of the classic reasons you choose MotoMirror. So if you are looking for a mirror that can go the distance and give you total visibility left to right along with up and down, then the Moto4 is your answer.

MIRROR HEADS - DRIVER SIDE

- 350620 Heated Manual w/o Harness
- 350601 Heated & Motorized w/o Harness

MIRROR HEADS - PASSENGER SIDE

- 350600 Heated & Motorized w/o Harness

COMPLETE KITS (ALL INCLUDE SWITCH KIT)

- 350530 1 x Heated & Motorized w/ Harness & 1 x Heated Manual w/ Harness
- 350510 2 x Heated & Motorized w/ Harness

NOTE: YOU CAN ADD A LIGHT TO THE BACKS OF ANY MOTOMIRROR AERO OR TRADITIONAL MIRROR BY ADDING AN "L" TO THE FRONT OF THE PART NUMBER.

MOTO4 PLUS

Moto Plus is really a plus when it comes to maximum visibility. We built on the Moto4, carrying over the unique horizontal rotating head, vertical glass movement, not to mention everything else it means to be a MotoMirror... and added a rectangular convex mirror. As you rotate the mirror head left and right, your convex view follows with you. This helps you operate with confidence in those tight spaces you see every day.

MIRROR HEADS - DRIVER SIDE

- 340620 Heated Manual w/o Harness
- 340601 Heated & Motorized w/o Harness

MIRROR HEADS - PASSENGER SIDE

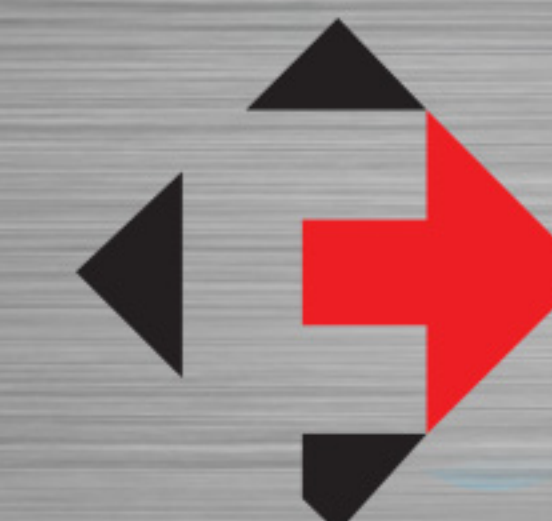

- 340600 Heated & Motorized w/o Harness

COMPLETE KITS (ALL INCLUDE SWITCH KIT)

- 340530 1 x Heated & Motorized w/ Harness & 1 x Heated Manual w/ Harness
- 340510 2 x Heated & Motorized w/ Harness
